Board Member Oakley moved, seconded by Board Member Flores, to approve the July 9, 2018, Zoning Board of Appeals minutes.

Motion carried 5 - 0.

**OLD BUSINESS:**

**ZBA 18-09 Swigert Enterprises LLC, Applicant**  
**716 S. Milwaukee Avenue**

**Request is for a variation to increase the maximum permitted number of business signs from two (2) to three (3) for the American Center for Spine Neurosurgery & Corporate Wellness Partner located in a C-3, General Commercial District.**

Mr. David Smith, Senior Planner, introduced the petitioner's request. Mr. Smith stated that the petitioner, Swigert Enterprises LLC, is seeking approval for a variation for signage for the American Center for Spine Neurosurgery & Corporate Wellness Partner located in a C-3, General Commercial District at 716 S. Milwaukee Avenue.

Mr. Smith stated that the petitioner is also seeking approval for an Amendment to the Libertyville Zoning Map in order to rezone property from a C-4, Shopping Center Commercial District to a C-3, General Commercial District located at 716 S. Milwaukee Avenue.

Mr. Smith stated that Staff has completed an overall cursory review of the site plan and although the proposed site plan, including the building, parking lot, and resulting on-site traffic flow, is not subject to Plan Commission and Zoning Board of Appeals purview, Staff has provided review comments listed in the DRC Staff report in order for the applicant to give consideration to

them prior to the submission of a building permit application and a site development permit application. Mr. Smith stated that the Plan Commission and Zoning Board of Appeals are requested to make a recommendation on the sign variation request and the Zoning Map Amendment request only.

Mr. Brad Kang, architect for the petitioner, stated that the subject site was previously developed with a residence that was added onto and converted into a medical office building by Advocate Condell Medical Center. He stated that the building was demolished last year but that the ancillary parking lot was left intact on the east side of the building site. Mr. Kang stated that they are proposing to rezone the adjacent parking lot from C-4 to C-3 so that the entire site has a contiguous C-3 zoning. He stated that as part of their new medical office building they are seeking two wall signs, one of which is proposed on the west elevation of their proposed new medical office building and one located at the southeast corner of the building above the proposed entrance into the building. He stated that they are asking for approval for a freestanding sign as well.

Board Member Pyter asked about the existing road that dead ends at the north side of the parking lot. Mr. Kang stated that that road is Second Avenue.

Board Member Flores stated that it did not seem that the proposed wall sign on the west elevation would be difficult to see by passing traffic and indicated that there did not seem to be sufficient merit for this sign. She stated that it makes sense to keep the freestanding sign and the proposed wall sign at the southeast corner of the building which could be seen from the parking lot.

Board Member Oakley stated that he agrees that the wall sign on the west elevation of the building is not necessary. He stated that the proposed location for the trash enclosure is too far away from the proposed building and too close to the existing residences to the north. He stated that he is concerned about how the proposed medical facility will dispose of the medical waste.

Mr. Kang stated that it is better that the proposed trash enclosure is further away from the building due to the parking lot configuration. He stated that they are proposing to remove some of the older trees on the property along Milwaukee Avenue which will help to remove any of the line of sight obstruction for the wall sign on the west elevation.

Board Member Krummick stated that he concurs with Board Member Oakley regarding the location of the trash enclosure and that consideration should be given to locating closer to the northwestern corner of the parking lot.

Vice Chairman Moore stated that he concurs with the Staff review comment regarding the traffic flow and that consideration should be given to revising the traffic flow pattern. He stated that he is not in favor of the sign variation.

Vice Chairman Moore asked the petitioner what he would like for the Zoning Board of Appeals to do this evening. Mr. Kang stated that he is ready for a recommendation to be given to the Village Board.
